PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

UPWORK   December 2016 - Present

- Top rated in the following Upwork proficiency exams; HTML5, CSS, Ruby on Rails, UX/UI Design, and Time Management.
- Built a corporate website for a $100M Silicon Valley Tech Company.
- Created curriculum and shot a 10 hour course on HTML, CSS, and JavaScript.
- Built a web-app that automatically invests spare change into Bitcoin. (www.cabbagepatch.co)
- Manage the website and IT for the Miami Beach Community Church.

Product Manager

BLOCKBASIN   February 2018 - Present

- Blockbasin is a blockchain real estate company in pre-funding. My role has been to align the right technical strategy, design prototypes, create personas, evangelize agile methodologies, iterate on market feedback, and help bring this product to market.

Product Owner

FRESH POW   November 2016 - January 2018

- Worked with Olympic snowboarders to create a protein powder for high altitude athletes. Responsible for all of the product marketing, development, and go-to market strategy.

Business Development Associate

AUCTION.COM   January 2015 - November 2016

- Created pitch materials in under 24 hours for a team of 12 Vice Presidents.

Acquisitions Analyst

KARLTON INVESTMENT GROUP   March 2014 - January 2015

- Wrote daily 1 page reports, summarizing options trading activity, vendor selection for real estate projects, and business development leads for off-market shopping centers and apartment buildings.

Account Executive

GROUPON   September 2010 - May 2012

Launched a new market, grew Groupon Getaways, represented Groupon at international conferences, and awarded top 1% closer for merchant partnership products. Generated over $2M in revenue.
